Ajman Corniche Residence with its seven interlinked towers and its breath-taking sky gardens, is the most spectacular waterfront neighbourhood, directly facing Ajman Beach in the Corniche area. All seven towers embody a unique architectural design incorporating spectacular features such as the spacious sky gardens where residents can relax and enjoy the views. The apartments range in size from stylish studios to expansive four-bedroom suites.

ECOSAN

DRINKING WATER INSTALLATION SYSTEM

A SAFE AND RELIABLE CHOICE FOR DRINKING WATER SYSTEMS

The reliable, safe and corrosion-free transportation of water has been a core POLYMELT competence for over 30 years. The high-quality product line ECOSAN encompassing a broad portfolio of pipes and fittings covers all types of applications relevant to building installation, from the main pipe to the last tapping point and is regarded as synonymous with quality and innovation in more than 20 countries across the globe. Thus, POLYMELT offers its customers perfectly coordinated solutions from a single source.

ADVANTAGES OF ECOSAN

- Outstanding long-term resistance
- Corrosion-free
- Safe and homogeneous connections
- Simple and fast assembly
- Excellent chemical resistance
- Superior heat- and sound-insulating properties
- Suitable for very strict hygiene requirements
